"PROGRESSIVE" EVERBEARING STRAWBERRIES

*Planted in May—June They Will Fruit Freely
This Year and From July to November*

The Everbearing Strawberries Have "Made Good"

The Everbearing Strawberry is a great success. We have tried them out thoroughly and know their value from our own experience. They have "made good" in commercial and home garden planting in widely varying parts of the country.

Bear The First Year. Everbearers, set out in the spring, produce fruit the same season.

Bear All Summer. The genuine Everbearing strawberries are dependable. They bear early in the season and keep on bearing until frost comes. The heaviest crops come late in summer when it is cooler and there is plenty of moisture. And the best berries you ever tasted, big and red and sweet, and juicy. Real "Worth-While" strawberries.

Prices: Per 25 Plants, \$1.00; 50 Plants, \$1.75; per 100 Plants, \$3.00; per 250 Plants, \$7.00; per 500 Plants, \$13.00; per 1,000 Plants, \$25.00.

Note: All prices quoted above include Free delivery to your door.

Note: We also supply all varieties of Standard or "2nd year" Strawberries at Market Prices.

Early orders for Everbearing Strawberries are advisable—last season supply was far short of the demand. (We sold over 35,000 of them, mostly in units of 25, 50 and 100 plants.) We make delivery to your door in due planting season.

NON-WARRANTY AND TERMS

Although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we still give no warranty as to description, quality or productiveness of any of the seeds, plants, bulbs, etc., we send out, and will not be in any way responsible for the crop, and every order for articles named in this catalogue will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

OUR TERMS are cash with order, excepting with customers already having open accounts with us, or we shall be glad to open charge accounts with new customers subject to satisfactory references being furnished. We prefer not to send C. O. D., but if wanted by that method, customers should enclose one-fourth of the amount, in remittance with order. No trees, or other perishable stock are sent C. O. D.

Better Fruits and Vegetables

You cannot afford to grow food for bugs. It must be saved for yourself, your friends, both at home and across the sea.

So far as possible you want to protect your crops against loss by bugs and fungus. Pyrox does both. It kills apple

worms and prevents apple scab; it kills potato bugs and prevents potato blight; it kills tomato worms and makes your tomatoes grow better.

That last point is one reason why so many people are now using Pyrox. It actually has a stimulating and invigorating action on the foliage of many kinds of fruits and vegetables, so it not only protects the crop; but actually improves it, increases the yield and makes the crop worth more.

"Worth-While" Quality Vegetable Seeds FOR HOME GARDENS

The Easy Way to Success in Your Vegetable Garden

If you are not thoroughly posted it is a difficult matter to make up your seed order out of a multitude of varieties as listed in the ordinary seed catalogue. If you happen to select the best sorts, all well and good, but if you are not posted you are just as apt to order a half or more varieties that are well known to seed trade as seconds or thirds in value and that will give you inferior results when grown in your garden. By our plan we have done away with the many poorer sorts and list only those that have been proved the very best of their kind.

We have been growing fancy vegetables for our home tables for a good many years. During that time we have selected the very cream out of a multitude of varieties such as are usually carried by the ordinary seedsman and you can make no mistake in ordering freely from these pages, as every variety listed is one we have found to be the very best of its kind.

SWISS CHARD OR SPINACH BEET,
EXCELLENT FOR "BOILING GREENS"

SWISS CHARD OR SPINACH BEET

The remarkable demand for this exceptionally meritorious vegetable proves that it is finally receiving that degree of attention which its many valuable characteristics deserve. Swiss Chard is a type of Beet growing all tops. The tops consist of strong ribs or leaf-stalks which support the very large leafy portion of the plant. Cooked like Spinach Greens, the leafy portion of Swiss Chard is of most excellent flavor. The stalks are cooked in a similar fashion and served with a dressing as you would prepare asparagus. Thus Swiss Chard really gives you two vegetables in one. Plant the seeds the same as ordinary Beet seeds, but thin out plants to stand, first 6 inches, later on a foot apart.

Large Silver-ribbed Curled. (See illustration above.) The yellowish green leaves of this variety vary from perfectly smooth to slightly crinkled. Stalks and midribs white. Excellent quality. Pkt. 5c; large pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.75.

SELECTED PEAS—Extra Early Varieties

Nott's Excelsior. 15 inches. The pods average fully one-third larger than those of American Wonder, and while Nott's may not always be quite so early by a few days, are all ready for picking at one time. Each pod contains 6 to 8 large peas. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

American Wonder. Of extremely dwarf growth, only eight to ten inches high, this is nearly as early as Alaska. The pods, while of small size are filled with luscious, large peas. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

Little Marvel. The remarkable 3-inch pods are literally filled to bursting with the largest, dark green Peas we have ever seen squeezed in a medium-sized pod. Little Marvel has a flavor all its own. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

Laxtonian. 80 days. Height 15' to 18 inches. The largest podded of the dwarf varieties. Pods 4 $\frac{1}{2}$ to 5 inches long; dark green in color. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

SELECTED PEAS—SECOND EARLY VARIETIES

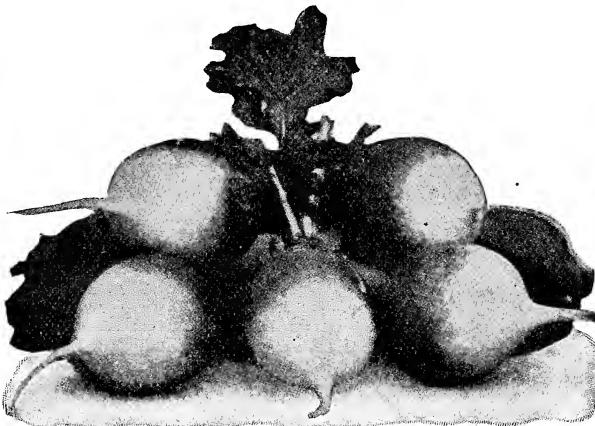

Alderman. 70 days; 3 feet. A choice selection from the Duke of Albany class, but larger in pod, more productive, and of equally fine quality. The Peas are large and of fine flavor. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

Thos. Laxton. 70 days. The most thoroughbred of all early wrinkled sorts and a winner for quality. Pods large; seed wrinkled; sweet, of fine flavor. Pkt. 10 cts., $\frac{1}{2}$ lb. 30 cts., lb. 50 cts., 2 lbs. 90c.

Gradus. Considered best of the green wrinkled varieties, grows about 30 inches high and is a very heavy producer. We highly recommend this grand variety. Pkt. 10 cts., $\frac{1}{2}$ lb. 30 cts., 1 lb. 50 cts., 2 lbs. 90c.

Dwarf Telephone. Vines average 24 to 28-inch. Pods average 2 $\frac{1}{2}$ to 3 inches long, well filled with large sugary peas. Pkt. 10 cts., $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 90c.

Telephone. Vines vigorous, growing about four feet high, with large, coarse, light colored leaves and producing an abundance of very large pointed pods filled with very large peas which are tender, sweet and of excellent flavor. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 45 cts., 2 lbs. 80 cts.

RADISH, SCARLET TURNIP, WHITE TIPPED.

A BED OF KING HUMBERT CANNAS BORDERED WITH GERANIUMS.

CULTURE FOR CANNAS

Dormant roots can be started in home, conservatory or hot-bed, in sand or sphagnum moss, from February 15th up to May 1st. After making root growth they should be potted into light soil and planted out about June 1st. Dormant roots can also be planted into open ground about May 10th. However, such of course, bloom rather late in the season. For those who have not the facilities for growing on dormant roots, we supply strong started plants about May 25th and up to July 1st. (See opposite.)

OUTDOOR PLANTING OF CANNAS

Cannas should be planted in good, rich garden soil, mixed with half of old rotten stable manure, by the end of May when danger from frost is past. Water sparingly for first two weeks after planting. When growing freely, water liberally. Set the plants about 18 inches apart each way, and if more than one kind is used, be careful to plant the taller growing kinds in the center and the dwarf ones along the edge. This applies to planting in beds.

"WORTH-WHILE" QUALITY
FLOWER SEEDS

Explanation of Abbreviations Used in the Descriptions

Hardy Annuals, HA. These should be sown outside in April or May, according to season, latitude, and condition of soil; or they may be sown at a somewhat earlier date in a hotbed or greenhouse, the combining of the two methods being advisable, thereby providing for a succession of plantings if both sowings prosper. Seed sown under glass will also produce earlier-blooming plants than seed sown outdoors. The soil should be rather light and rich, and for outdoor sowing it must be thoroughly dug up, well raked and leveled. The coarser seeds are to be covered to once or twice their thickness, while very fine seeds are merely to be pressed into the soil. All sowing should be firmed with a board or the hand, as this hastens the germination of the seed as well as promotes its regularity. For indoor sowing, use shallow boxes of several inches in depth, and of a size to suit. Careful attention is required as soon as the seed is sprouted that seedlings may not suffer for lack of moisture, and of air if grown indoors.

Half-Hardy Annuals, HHA, Half-Hardy Biennials, HHB, and Half-Hardy Perennials, HHP. These may be sown indoors, as above directed, from March to May, and outdoors after the middle of May. Many of the Biennials and Perennials will bloom the first season if sown early.

Hardy Biennials, HB, and Hardy Perennials, HP, can be sown outdoors as soon as the soil is in good tillable condition. If sown early indoors, many of them will bloom the first season. Sowings made from July to September will produce well-established plants for the next season. These should be somewhat protected during the winter. Many seeds of Hardy Biennials and Hardy Perennials are of very slow germination, and seeds of such should not be condemned as bad if a quick germination does not show.

Tender Annuals, TA, Tender Biennials, TB, and Tender Perennials, TP, can be sown in March in the greenhouse or in hotbeds in shallow boxes. Transplant to secure sturdy plants which can then be planted outdoors after danger of frost is over, about May 15.

HHA, HHB, and HHP designate Half-Hardy Annuals, Biennials and Perennials.

HB and HP designate Hardy Biennials and Perennials.

TA and TP designate Tender Annuals and Perennials.

Any species or variety to which no letters are affixed are to be considered as Hardy Annuals.

ANTIRRHINUM HHP

(Snapdragon)

(See illustration above)

Everybody's Favorite

This is one of the very best of border plants with dark, glossy leaves and long spikes of curiously shaped, brilliantly colored flowers with finely marked throats.

For summer bedding the simplest course is to treat Antirrhinums as half-hardy annuals, sowing seed in February or March, shifting to pans or boxes as may be necessary, and planting out after the weather becomes warm. The Antirrhinums will then flower freely from the beginning of July until the end of September.

BALLOON VINE (Cardiospermum)

A rapid-growing annual climber. White flowers, succeeded by balloon-like seed vessels. 10 to 15 ft. Pkt. 5 cts., oz. 35 cts.

HENDERSON'S SPECIAL

ASTERS, CHINA HHA

Asters now rival the chrysanthemums in form and colors, and are the leading cut-flower from midsummer until the appearance of the chrysanthemum. They delight in rich, moist soil, and, for the largest and finest-colored flowers, frequent rains or waterings are required. For successional flowers sow seed from March to June. We offer the best strains and varieties.

AMERICAN BEAUTY

A magnificent cutflower variety in bloom from Early August until well in September—pronounced by experts to be the finest mid-season Aster yet introduced. Rose or purple, per ptk., 25c.

Queen of the Market. One of the most popular varieties, being extra early. Flowers of good size and substance, and borne on long stems. July. 1 foot. Each, ptk. 10 cts., $\frac{1}{8}$ -oz. 35 cts.

"KING" ASTER

HENDERSON'S BEAUTIFUL "KING" ASTERS

(For Cut Flowers)

The "King" Asters form a distinct class or type and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear through August and September, very large, double blossoms, the petals of which are more or less quilled, forming a very attractive flower. Colors, shell pink, rose pink, violet, lavender, white, crimson, purple, or all colors mixed. Price, ptk., 15c. 7 pkts., one each of above, for \$1.00.

CALENDULA (Pot Marigold)

Hardy annuals that thrive anywhere, especially in city gardens. The graceful star-shaped flowers exhibit every shade of yellow from ivory to deep orange. Well adapted for cutting, being borne upon long stems; 18 inches.

Meteor. Large yellow flowers, striped with orange. Handsome. Pkt., 5c; $\frac{1}{2}$ -oz. 35c.

Orange King. (Special Strain.) Like "Meteor," but much darker in color. Exceptional for cut flowers. Pkt., 10c; $\frac{1}{4}$ -oz., \$1.00.

CALLIOPSIS, OR COREOPSIS

Very showy border plants, producing in great profusion and for a long time flowers which are bright yellow and rich brown, either self-colored or with these colors and red contrasted. Combination Mixture. Pkt., 5c; oz., 30c.

CANARY-BIRD VINE (Tropaeolum Canariense)

A beautiful rapid annual climber, the charming little canary-colored blossoms bearing a fancied resemblance to a bird with its wings half expanded. Per oz., 35c; per ptk., 5c.

CANDYTUFT

(Iberis.) Showy, branching plants, twelve to fifteen inches high and bearing a profusion of beautiful flowers in a wide range of colors.

Sweet Scented. White. Pkt., 5c; oz., 60c.

CELOSIA PLUMOSA

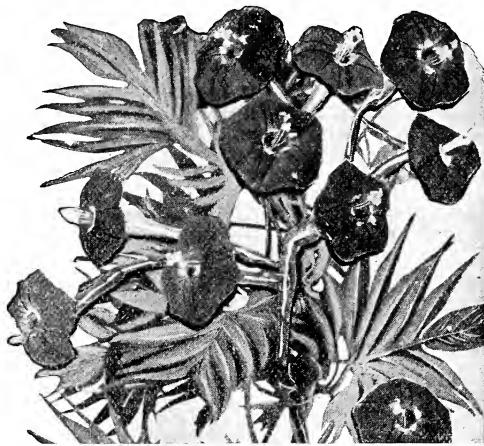

Plumed or Feathered Cockscomb

Of pyramidal growth, with superb feathery plumes. Grand pot-plants and beautiful for beds during the summer months.

Childsii (Woolflower). Bloom starts early with a center head, round and globular, which at times reaches the immense size of 2 feet in circumference. When in full bloom looks like an immense bouquet. Deep crimson-scarlet. Plant 2 to 3 feet high. Pkt. 15 cts.

Thompsonii magnifica. Improved varieties of splendid colors. 1½ feet. Crimson, Gold-Yellow, Scarlet, and Mixed. Each, ptk., 10 cts., $\frac{1}{4}$ -oz. 50c.

Queen of the Dwarfs. Plants attain a height of only 8 inches. Combs of a beautiful dark rose-color. Pkt. 10 cts., $\frac{1}{8}$ -oz. 35 cts.

THE CARDINAL CLIMBER TA

(*Ipomoea Quamoclit Hybrida*)
(See illustration above.)

Generally considered the most beautiful and brilliant annual climber. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful fern-like foliage, and literally covered with a blaze of circular cardinal-red flowers from mid-summer till frost. Like other Ipomeas, it delights in a warm, sunny situation and good soil. The seed may be started indoors in March or April in a temperature of not less than 70 degrees and the plants set out when the weather gets warm, but it is just as well to wait until the weather gets warm and settled and then sow out of doors. In either case germination will be hastened and made more certain by filing or cutting a small notch in each seed. They are likely to germinate poorly unless this precaution is taken. If sown in cold, wet ground, the seed is liable to rot.

Packets each, 15c; 2 pkts., 25 cts.

CARNATION HHA

Giant Free Blooming Dwarf Marguerite, Mixed. The plants of this wonderfully fine strain may be made to bloom in four months. One of the best "pinks" in cultivation. Pkt., 10c.

CORNFLOWERS (Bachelor's Buttons) HA

(*Centaurea Cyanus*)

Free-blooming, hardy annuals, known under various popular names. This class includes Cornflowers, Blue-bottle, Sweet Sultans, etc. The cut flowers are favorites with everyone always meeting with ready sale.

Double Blue. It is identical in color to the popular single blue variety, which is so much in demand for cutting, especially for buttonieres, but, being a full, double flower, it takes fewer of them to make a nice bunch, and it is better in every way. Pkt., 10c; 1/4-oz., 50c.

Double-flowered. Mixed. All colors, including blue, rose, white, etc. Pkt., 10c.

CHRYSANTHEMUMS (Annual Varieties) HHA

Summer blooming border plants of compact, thrifty growth, 1 to 1 1/2 feet high, producing large blooms 2 inches across, from July until frost. Extensively grown for cut flowers. They are partial to a little shade. Sow seeds in the open where plants are to stand.

Henderson's Superfine Mixture of Single and Double Chrysanthemums. A special mixture of free flowering sorts. Pkt., 10c; 1/2-oz., 35c.

EXTRA EARLY-FLOWERING COLOSSAL COSMOS HHA

Seeds sown in the open ground April 27th produced plants that were covered with bloom July 20th, two months before the late flowering kinds. By careful selection they now have flowers as large as the late-flowering kinds, and will undoubtedly perfect their blooms in the most northerly States.

"Worth-While" Quality Seeds

COBAEA (Cup and Saucer Vine) TA

A climber of rapid growth, attaining a height of 30 to 50 feet during the season; valuable for covering trellises, arbors, trunks of trees, etc.; will cling to any rough surface. In sowing, place seeds edgewise and merely cover with light soil; to get early results start the seed indoors in March or April; can also be sown out-of-doors in May.

Scandens. Large, bell-shaped purple flowers. 1/4-oz., 25c; pkt., 10c.

Alba. White, Pkt., 10c.

DAHLIAS HHP

One of the best late summer and autumn flowering plants, and now enjoying a wide popularity; the double sorts will bloom the first season if the seed is sown before the beginning of April.

Double Large-flowering. Saved from fine double show sorts, 1/4-oz., 50c; per pkt., 10c. (For Dahlia roots see page 16.)

Single Flowered. Pkt., 10c.

DELPHINIUM (Larkspur) HA

These form very showy bedding plants that bloom freely during the summer months. Their flowers are very bright, mainly shades of blue, purple, rose, violet, and white. They are durable and elegant for cutting. The seedlings should be thinned out early, to secure the fine branching habit now common to most of the strains offered.

Tall Rocket Mixed. Pkt. 10c.

Dwarf Mixed. Pkt., 10c.

DIANTHUS. PINKS HA

The Dianthus family furnishes many of the most beautiful flowers, including the Carnations, Sweet William, Chinese and Japanese Pinks in all their varieties.

Double Chinese Mixed. Pkt., 5c. 1/4-oz. 25c.

Double Japanese Mixed. Pkt., 5c. 1/4-oz. 25c.

DOLICHOS (Hyacinth Bean) HHA

A rapid-growing annual climber, flowering freely in erect racemes, followed by ornamental seedpods; for covering arbors, trellises, etc. Sow the seed in the garden in May where they are to remain; 10 feet.

"Daylight." Covered with spikes of snow-white pea-shaped blossoms until late fall. The heart-shaped foliage is bright green and not affected by insect pests. Per oz., 35c; per pkt., 10c.

"Darkness." Identical in every way to the above except in color, which is rich purple-violet. Per oz., 35c; per pkt., 10c.

ESCHSCHOLTZIA (California Poppy) HA

The state flower of California. A genus of the Poppy family and fully as valuable as the common Poppy for garden ornamentation since it blooms almost continuously throughout the season.

Henderson's Combination Mixture. Pkt., 5c; per oz., 50c.

FORGET-ME-NOT HP

(*Myosotis*) A favorite old-fashioned flower, bearing in profusion, clusters of blue blossoms. It thrives well in the shade or open border. Hardy perennial.

Dissitiflora. Deep blue, early blooming. A good border plant. Pkt., 10c.

FOUR O'CLOCK HA

(Marvel of Peru.) Large and beautiful old-fashioned plants of spreading habit, which produce in profusion a succession of brilliantly colored flowers that open about 4 o'clock in the afternoon, remain open all night and usually are closed before noon the next day. Hardy annual, about 2 feet high.

Henderson's Combination Mixture. All sorts and colors. Pkt., 5c; oz., 25c.

GAILLARDIA (Blanket Flower) HA

Showy plants, remarkable for the profusion, size and brilliancy of their flowers, blooming the first year and among the gayest ornaments of the garden. Sow the seeds where the plants are to bloom; or longer season may be secured by planting in frames and transplanting. Hardy annuals and perennials, one to one and one-half feet high.

Small Extra Mixed. Pkt., 5c; Per oz., 50c

Double Perfection Mixed. Large handsome heads of double flowers in rich shades, fine for cut flowers. Pkt., 5c; Per oz., 60c.

"Worth - While" Quality Flower Seeds

GODETIA

Attractive, hardy annuals, deserving more extensive cultivation. The plants bloom profusely, and bear showy flowers of satiny texture in many rich and varied colors. They do best in a rather poor soil: 1 foot. Pkt., 5c; per $\frac{1}{2}$ -oz., 30c.

ORNAMENTAL GOURDS

Rapid growing, interesting annual climbers, with ornamental foliage and singular shaped fruit; 15 to 20 feet. Mixed. Pkt., 10c; per oz., 50c.

Nicotiana (Sweet Scented Tobacco Plant) HHA

The following varieties are beautiful flowering plants and handsome for borders.

Affinis. A lovely white flower that opens mornings and evenings and during cloudy weather. 2½ to 3 feet. Pkt. 5 cts., ¼-oz. 25 cts.

Sanderæ Hybrids. Flowers large; colors are all fine. White, crimson, flesh, purple, rose-violet, blood-red, forming a beautiful mixture. Pkt. 10 cts., ¼-oz. 35 cts.

Sylvestris. The long, tubular, white flowers droop in racemes over the foliage, are very sweet, and do not close during the day. 5 to 6 feet. Pkt. 10 cts., ¼-oz. 25 cts.

PANSIES HP

Henderson's Combination Mixture is what we represent it to be. "The best that it is possible to obtain." Per ⅛-oz., \$1.50; per pkt., 25c.

Henderson's Premium Mixture contains an extensive number of colorings and is intended to supply the want of a first-class mixture at a moderate price. Pkt., 10c.

Henderson's Bedding Mixture. A choice selection of colors with good sized flowers. For general purposes this mixture will give satisfaction. One-quarter oz., 25c; pkt., 5c.

GIANT FLOWERING PETUNIAS HHA

All things considered there is probably no annual plant that is more effective than the various sorts of Petunias, of the easiest cultivation. Requiring only a good soil and sunny position.

Giants of California Mixture. Flowers very large, in great variety of colors and markings, with deep yellow throats. Pkt., 50c. Fringed Mixed. A super-fine strain of beautiful fringed flowers in mixture. Pkt., 50c.

Extra Fine Mixed. Pkt., 10c. Fine Mixed. Pkt., 5c.

Double Extra Fine Mixed. Pkt., \$1.00.

PETUNIA HYBRIDA "Rosy Morn"

The pretty flowers, covering the full grown plant by the hundreds, are of a brilliant-rose color with white throat. Pkt., 10c; ¼-oz., 75c.

PHLOX DRUMMONDII (Flame Flower)

A very beautiful and useful class of half-hardy annuals. They are so many-hued, brilliant, varied and lasting, that few rivals are to be found for effectiveness from July to fall. To secure good results, they should be sown or planted in well-drained soil and thinned out at an early stage to secure sturdy plants. Full sun exposure suits them best, as in wet or shady situations they are subject to mildew. Seed may be sown outdoors in April and May, or earlier indoors and transplanted. All faded trusses of flowers should be removed before they go to seed.

Choice Mixed. One-quarter oz., 35c; pkt., 5c.

Extra Choice Mixed. Contains all of the above named sorts and several new varieties. ¼-oz., 75c; pkt., 10c.

PHLOX NANA COMPACTA

Dwarf; compact. These are elegant for beds, edging, and nice for pot-plants. They may be planted or thinned to 8 inches space. They will average 6 inches in height.

Chamois-Rose. Pkt. 10 cts., ⅛-oz. 35cts.

Fireball. Scarlet. Pkt. 10 cts., ⅛-oz. 35cts.

Snowball. White. Fkt. 10 cts., ⅛-oz. 35cts.

Choice Mixed. Pkt. 5 cts., ¼-oz. 75cts.

"Worth-While" Quality Flower Seeds

PORTULACA (Sun Plant)

These are succulent plants that delight in light, dry soil in a sunny situation, blooming profusely during the hottest weather and producing a gorgeous display. The seed should be sown where wanted and thinned out as required, the plants being of a spreading character. 6 in.

Single Finest Mixed. In numerous rich colors. Pkt. 5c, oz. 50c.
Double Mixed. Extra-fine quality. A large percentage of the flowers come double. Pkt. 10 cts., ¼-oz. 75c.

POPPIES (Papaver) HA

Poppies are unsurpassed for brilliancy of color and from the charming little Shirley to the gorgeous peony-flowered, are subjects of lavish admiration. As they do not transplant satisfactorily, it is advisable to sow them where they are to remain. Many of them are elegant for cutting, particularly the Shirlies; these, if picked early in the morning with buds just showing color, will be found durable for two days or more.

SINGLE ANNUAL POPPIES

Shirley Improved. This is a charming class of Poppies, all white-centered, and running through many beautiful shades of rose, salmon, apricot, pink, etc., to glowing crimson. This is an elegant variety for cutting. 2 feet. Pkt. 5c, oz. 40 cts., 4 ozs. \$1.50.

Single-flowered, Mixed. In very fine mixture. Pkt. 5c, oz. 20c.

DOUBLE ANNUAL POPPIES

Carnation-flowered. A splendid border variety. Large, very double, fringed flowers in brilliant colors. 2½ ft. Pkt. 5c, oz. 25c.

Double Shirley (Ranunculus-flowered). Beautiful bright double flowers. Pkt. 5 cts., oz. 40 cts.

DOUBLE-FLOWERED POPPY, CHOICE MIXED

One of the finest strains, containing many exceptionally showy types and colors. Pkt. 10 cts., oz. 50 cts.

RICINUS (Castor Oil Bean)

Ornamental plants of stately growth and picturesque foliage, with brilliant colored fruit, producing sub-tropical effect; fine for lawns, massing or center plants for beds.

Zanzibariensis Mixed. A distinct class, which surpasses in size and beauty all varieties. The plants attain great dimensions presenting a splendid aspect with their gigantic leaves. Per oz., 35c; pkt., 5c.

RHODANTHE (Straw Flower)

Very beautiful, delicate looking "Everlasting," much prized for winter bouquets. Double Mixed. Pkt., 5c.

SALVIA SPLENDENS (Scarlet Sage)

The Scarlet Sage has long been a favorite bedding plant bearing long spikes of flowers from July till frost.

Splendens. (Scarlet Sage.) Beautiful bright scarlet; 3 feet. Pkt., 10c.

"America." This is one of the finest of the Scarlet Sages, growing in a compact bush 2 feet high by two feet in diameter. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plant. Pkt., 15c

SCHIZANTHUS

Wisetonensis. 1½ ft. A charming annual with graceful fern-like foliage and a profusion of flowers varying from almost white with yellow eye to a brilliant rose with bronzy brown center. Pkt., 15c.

SALPIGLOSSIS

Very showy bedding or border plants with richly colored funnel-shaped flowers which are purple, scarlet, crimson, yellow, buff, blue or almost black, beautifully marbled and penciled.

Splendid Mixture, giving a rich display of colors. Pkt., 10c.

STOCKS

(Mathiola.) Considered almost indispensable where a fine display of flowers is wanted and particularly valued for edgings, bedding and pot culture.

Double Ten Weeks Mixed. Shades of white, red, purple, lavender and maroon. ¼ oz., 50c; pkt., 10c.

Virginia Stocks. Pkt., 10c.

SUNFLOWER

Globosus Fistulosus. (Globe or Dahlia Sunflower.) Flowers large, double, of a rich saffron color; 6 feet. Per oz., 30c; pkt., 5c.

Henderson's Combination Mixed. Pkt., 10c.

"Worth-While" QUALITY FLOWER SEEDS

SPENCER OR ORCHID- FLOWERED SWEET PEAS

These are beautiful, large, wavy-petaled varieties, three or four flowers to a stem. As they are shy seeders, the price will be proportionately high.

Asta Ohn. The best lavender; four blossoms to a stem. Pkt., 10c; oz., 35c.

Blanche Ferry Spencer. Bright carmine-rose; wings white. Pkt., 10c; oz., 40c.

Countess Spencer. Lovely clear pink, darker toward margin; very large flowers. Pkt., 10c; oz., 40c.

Fiery Cross. Fire-red or scarlet without any shading. Beautifully waved and fluted. Sunproof. Pkt., 25c; oz., 75c.

Helen Lewis. Orange-rose wings which roll and fold; standard crimson-orange, 2 inches across and fluted. Pkt., 10c; oz., 35c.

King Edward Spencer. Bright crimson-scarlet; very large size; large, wavy standard and large, drooping wings. Pkt., 10c; oz., 40c.

King White. The best white to date; gigantic in size; pure white and perfect in form. Pkt., 10c; oz., 40c.

Royal Purple. Strong, rich purple. Pkt., 10c; oz., 40c.

Wedgwood. Lovely, light blue, waved flowers. Pkt., 10c; oz., 40c.

HENDERSON'S "EXHIBITION" ZINNIAS.
"YOUTH AND OLD AGE"

HENDERSON'S IMPROVED GIANT DOUBLE ZINNIAS HA

(Youth and Old Age)

A special strain of this grand old favorite free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across being not unusual. Plants are of extremely robust habit, attaining a height of about 3 feet and bearing on long strong stems numerous semi-globular, mostly very double flowers, all of the largest size, making them of great value in large beds, borders, etc.; grown under favorable conditions they remain in bloom from early summer to late autumn.

We offer six of the most wanted colors, separately, as well as a splendid mixture of many colors, as under:

	1/4 Oz.	Oz.	Pkt.
Double White	\$0.30	\$1.00	\$0.10
Double Golden Yellow30	1.00	.10
Double Flesh Color30	1.00	.10
Double Crimson30	1.00	.10
Double Scarlet30	1.00	.10
Double Violet30	1.00	.10

Curled and Crested. The petals of this beautiful strain are twisted, curled and crested into the most fantastic and graceful forms. The colors comprise all the brilliant shades characteristic of the Zinnia. 1/4 oz., 25c; pkt., 10c.

Henderson's Extra Fine Mixture of "Exhibition" Zinnias. Pkt., 10c; 1/4 oz., 30c; oz., \$1.00.

Henderson's Special Mixture of Dwarf Zinnias. Made up from a grand assortment of dwarf varieties. Pkt., 10c; 1/4 oz., 25c.

WILD CUCUMBER HA

(*Eschscholzia lobata*.) This is a useful climber where a rapid and vigorous growth of vine is desired. Hardy annual, 1/2 oz., 15c; oz., 25c; 1/4 lb., 70c; ptk., 5c.

VIOLA (Tufted Pansies) HHA

While the flowers of Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to Pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time. Seed sown in April produces flowering plants in June, and from then on until frost they are a sheet of bloom. **Mixed Colors.** Pkt., 10c.

Bulbs and Flowering Roots for Spring Planting

THE QUICK AND EASY WAY TO A BEAUTIFUL FLOWER GARDEN

CALADIUM ESCULENTUM.
(Elephant's Ears.)

FANCY-LEAVED CALADIUMS

These do not grow as large as the types described previously, but are highly esteemed for their showy foliage. Distinctly plants for house or conservatory. 10 finest named varieties, each 35c, doz., \$4.00; per 100, \$25.00.

ISMENE CALATHINA

(Peruvian Daffodil)

(See Illustration)

A splendid summer-flowering bulb; pure white, amaryllis-like, very fragrant flowers; a profuse bloomer. Plant in June. Can be taken up in fall and after a short period of rest can be potted for winter bloom indoors. Mammoth bulbs, 15 cts. each, \$1.65 per doz.

ISMENE CALATH

MADEIRA VINE

A beautiful rapid-growing climber, bearing graceful racemes of fragrant white flowers; of great value for covering porches and arbors. The leaves are thick and glossy. Each, 10c; doz., \$1.00. Mammoth roots—each 15c; per doz., \$1.50.

GIANT SUMMER HYACINTH

Hyacinthus candidans. Luxuriant, free-growing summer-flowering plant; spreads 2 or 3 feet, throwing up great tall spikes 4 to 5 feet in height, each bearing 20 to 30 large white bell-shaped flowers; of the easiest culture and fine for groups in the back of flower borders or among shrubbery. Treatment same as for Gladiolus. Extra large bulbs, each, 15c; per doz., \$1.50.

DAHLIAS

Stately and handsome autumn-blooming plants that have again become very popular. They require well-drained, deeply dug soil of moderate fertility. The dormant tubers can be planted out from April 25 to June 30, according to the season.

Large Undivided Field Clumps

We offer 35 of the "better" varieties in cactus, decorative, show Pompon and single types. All under name in shades of white, crimson, pink, yellow and variegated, large clumps.

Price each, 25c; per doz., \$2.50.

On this and the following pages we list all that is best for the home-garden in the way of bulbs that either produce magnificent foliage effects or flowers, or both. The home-gardener, who has in the past had disappointing experiences in trying to create a flower-garden from seeds, could not find an easier way to success than to plant these bulbs.

The bulbs are really flowers or plants in embryo. Put into the ground and cultivated like the coarsest of all vegetables, they are bound to bloom and bring joy with less effort than it takes to grow a crop of potatoes.

We call particular attention to the Caladiums. As foliage plants they have no equal, producing a wonderful, tropical effect in a short time.

Dahlias, as well as Gladioli, are bound to bloom with the least of care. We supply extra quality bulbs that will produce finished results the first season.

CALADIUMS

(*Esculentum* or Elephant's Ear)

One of the most effective and easily grown foliage plants for the lawn or border. Can be used with good effect as a border for tall-growing Cannas when edged with Coleus or other low-growing foliage plants. Will thrive in any ordinary garden soil, but to get the best results, plant in rich soil and give plenty of water. With such treatment, a select size bulb will make a plant about 5 ft. high with leaves 3 ft. long and 20 in. wide.

First Size Bulbs. Each, 15c; 3 for 40c; doz., \$1.50.

Select Size Bulbs. Each, 20c; 3 for 50c; doz., \$1.75.

Extra Large Bulbs. Each, 35c; 3 for \$1.00; doz., \$3.50.

Mammoth Size. Beautiful Bulbs. Each 50c; 3 for \$1.25; doz., \$4.50.

CINNAMON VINE

"Hedges for Living Fences"

PRIVET (*LIGUSTRUM*) AMOOR RIVER VARIETY.
Genuine Northern Illinois Grown.

THE POPULAR PRIVET HEDGE

One of the most popular and perhaps the best all-around hedge plant is the so-called Amoor River Privet ("California Privet"). Is not hardy in the North—it is a waste of time and money to plant it). This is a very rapid growing plant which forms a solid, even, green wall, and is easily trimmed. This splendid hedge should be more largely planted, as it is a rapid, hardy grower and satisfactory in every respect. See illustration above.

PRICES

Height		Per Each	Per Three	Per Doz.	Per 100
2 to 3 ft. Bushy		\$0.30	\$0.80	\$2.90	\$18.00
3 to 4 ft. Extra Bushy		.40	1.05	3.50	22.00

BARBERRY—BERBERIS

THUNBERGII'S OR JAPANESE

The Japanese Barberry is of spreading growth and reaches only medium height. Its foliage is a beautiful light green (turning to bronze red in the fall), and it has a small yellow flower. The fine thorns serve as a protection. Oblong berries of a bright red color hang on during the winter. This is one of its most valuable characteristics, as very few hedges have any great beauty during the winter months. In addition to its other good points, Japanese Barberry is as hardy as an oak.

Barberry does not grow quite so thickly as the Privets, but then they are not intended for a tall hedge; will thrive north or south, on any kind of soil.

A Specialty With Us

Hedges have appropriately been called "living fences." They serve as a protection from outside intrusion, and at the same time are beautiful. Hedges can be used for marking the boundary lines of your property where division is desired. How much prettier is this wall of solid rich green than an ugly, artificial looking fence! All of our hedge plants are genuine "Northern Illinois" grown, highly cultivated and with a plentiful supply of fibrous root growth, thus insuring early results.

NATURALISTIC HEDGES

Besides the Privets and Barberries the following make good hedges. They need not be trimmed after the first year or two, but if left to grow naturally, will be very satisfactory. Descriptions and prices of the following list will be found alphabetically arranged in the Shrub Pages (22 to 23 inclusive) of this Catalogue.

SPIRAEA VAN HOUTTEI
PHILADELPHUS (MOCK ORANGE)
LILACS, ALL VARIETIES
WEIGELIA ROSEA
ROSA RUGOSA (JAPANESE ROSE)

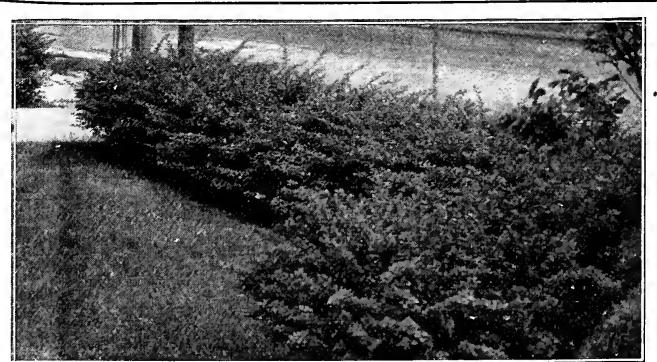

For real beauty Spiraea Van Houttei outshines them all, either in bloom or foliage, along the side of a lawn or against the foundation of a house (see page 23 for illustration).

SPECIAL NOTE:

We wish to caution prospective buyers against purchasing Southern Grown Amoor Privet, Also California Privet, frequently offered by unscrupulous dealers at so-called bargain prices. To plant such stock in northern Illinois is positively a waste of time and money.

HARDY EVERBLOOMING BUTTERFLY BUSH

(See Illustration Opposite) each 50c and \$1.00.

ALTHEA OR ROSE OF SHARON (Hibiscus Syriacus)

GREAT PANICLED HYDRANGEA.
(Hydrangea Paniculata Grandiflora.)

Bears long rows of bright golden yellow flowers, the first shrub to bloom in spring, each, 50c, 75c, and \$1.00, according to size.

FORSYTHIA (Golden Bells)

Attractive red berries in summer.
Each 50c, 75c and \$1.00, according to size.

DEUTZIA

Their hardihood, fine habit, luxuriant foliage and profusion of attractive flowers place them among the most beautiful and most popular of flowering shrubs. Flowers in June and through July and August. Of easy culture, thriving in almost any well drained soil.

Pride of Rochester. (B.) A variety of Deutzia Crenata Flore Pleno, and producing large double white flowers; back of the petals slightly tinted with rose. It excels all the older sorts in size of flower, length of panicle, profuseness of bloom and vigorous habit; blooms nearly a week earlier. 2 to 3 ft. bushy, each 50c.

Crenata Rosea Plena. Same character as above but produces large double pink flowers. 2 to 3 ft. bushy, each 50c.

HONEYSUCKLE BUSH

Blooms early in the spring. An old-fashioned shrub, with sturdy, oak-like habit, good foliage. Profusion of lovely pink flowers in May and June followed by translucent berries in the fall. Each, 50c, 75c and \$1.00 according to size.

HYDRANGEA, "HILLS OF SNOW"

(H. Arborescens Grandiflora)

One of the most valuable characteristics of this shrub is its coming into bloom just after the passing of all the early spring flowers, while its long flowering season, from June till late August, makes it an acquisition on any lawn. The heads of flowers are produced on long, strong stems, making them good for cutting for indoor decoration and at a time when few other flowers can be obtained. Each, 50c, 75c and \$1.00, according to size.

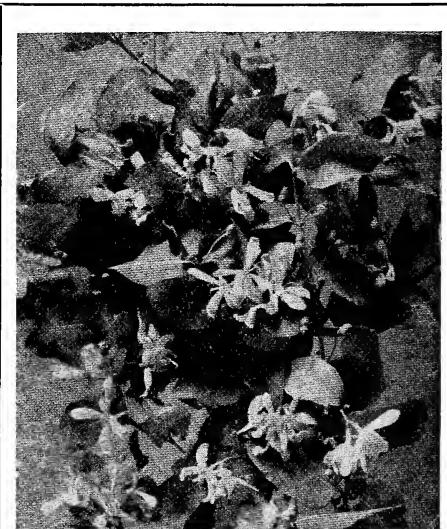

HYDRANGEA PANICULATA GRANDIFLORA

BLOOMS IN AUGUST, SEPTEMBER, AND OCTOBER

See Illustration Above

The flowers are rich, creamy white, changing to pink, and borne in immense clusters, often more than a foot long; it blooms in August, the first and every succeeding year, and continues in bloom for months. It is entirely hardy, no trouble to grow, and splendid effects can be obtained with this free-flowering shrub by planting it in masses along driveways, in groups among shrubbery or as a center for beds. Each, 50c, 75c and \$1.00, according to size.

HYDRANGEA paniculata grandiflora, Standard or Tree Form \$1.50 to \$2.00 each.

TATARIAN HONEYSUCKLE
(Lonicera Tatarica)
The flowers of all its varieties are similar excepting in color.

PLEASE
NOTE

We can supply specimen shrubs of all varieties listed in these pages at from \$1.00 to \$2.50 each.

Beautify Your Home with Flowering and Ornamental Shrubs

SWEET LILAC (*Syringas*)

Nearly every one is fond of Lilac blossoms. Their sweet fragrance comes with the first breath of spring, and their delicate colors of blue and white seem like a legacy from our grandmother's garden.

Old-Fashioned or Common Lilac (*S. vulgaris*). Strong, vigorous, upright growth; rich dark green foliage and large panicles of fragrant, purple flowers.

Each 50c, 75c and \$1.00 according to size.

Standard White Lilac (*S. vulgaris alba*). Same habit of growth as above, but with pure white, fragrant flowers. Each, 50c, 75c and \$1.00 according to size.

Charles X. Large, reddish purple flowers. Trusses open and free. Each 75c, \$1.00 and \$1.50, according to size.

MOCK ORANGE

(*Philadelphus*)

These popular old-fashioned shrubs are still highly valued and much appreciated for all landscape work. Most varieties are strong, vigorous growers and will thrive in partially shaded, as well as in sunny locations. Practically immune from insect enemies. Although the popularity of these ornamental shrubs has been gained largely on account of their fragrant flowers, it must be borne in mind that all kinds are not fragrant; also that young plants are not as sweet scented as older ones.

Grandiflora. Forms a large, spreading bush, with graceful, drooping branches, a strong grower. Each, 50c, 75c and \$1.00, according to size.

SNOWBERRY

Symporicarpos racemosus. Snowberry. (D). Pinkish white flowers in July. White berries in Fall and early Winter. Each 50c, 75c and \$1.00, according to size.

SNOWBALL

Sterilis. Guelder Rose or Old-fashioned Snowball. Each, 50c, 75c and \$1.00, according to size.

"MOCK ORANGE."

THE LILACS.
There is no Shrub so dear to the Heart as the Lilac.

SPIRAEA OR MEADOW SWEET

(BRIDAL WREATH)

The Spiraeas are not only extremely beautiful when in flower, but also are handsome when only in foliage. They are perfectly hardy and the variety "Van Houttei" cannot be surpassed for lawn decoration.

Anthony Waterer. (Perpetual-blooming Red Spiraea.) Each, 50, 75c and \$1.00, according to size.

Billardii. Pink flowers; blooms nearly all summer. Each, 50c, 75c and \$1.00, according to size.

Sorbiflora. A vigorous species, with leaves like those of the Mountain Ash, and long, elegant spikes of white flowers in July. Each, 50c, 75c and \$1.00, according to size.

"Bridal Wreath." Van Houttei. See illustration below. A splendid garden shrub, entirely hardy and one of the most beautiful of all; immense bloomers; pure snow-white flowers, one of the grandest shrubs in our list. Each, 50c, 75c and \$1.00, according to size.

THE WEIGELIAS

An important group, indispensable for ornamental planting. They thrive in most any soil, are strong growers and generally hardy. When young, of upright habit, growing with age into more graceful shrubs. Useful as specimens, and desirable for groups or masses. In May or June the Weigelias are aglow with a wealth of flowers borne all along their branches, and some varieties flower sparingly even through the Summer.

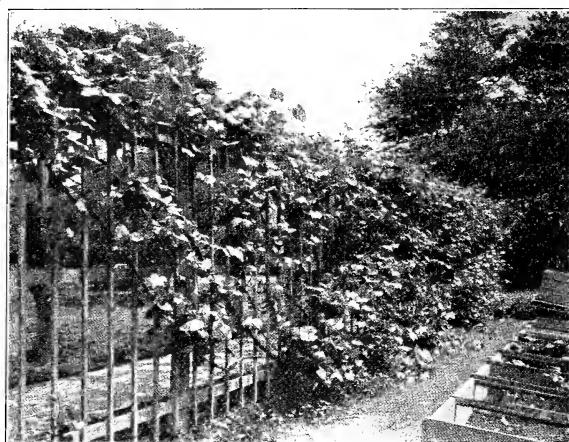

Amabilis. Rose-pink flowers are produced in great quantities in May and June. Each, 50c, 75c and \$1.00, according to size.

Eva Rathke. Almost a continual bloomer. Flower is between "Rose-Red" and "Pomegranate Purple." Each, 75c and \$1.00, according to size.

SPIRAEA VAN HOUTTEI, BRIDAL WREATH.
A Most Graceful and Beautiful Shrub With a Wealth of Beautiful Flowers in May.

GRAPE VINES PLANTED ALONG THE GARDEN WALK.

Concord. Black. Decidedly the most popular Grape in America, and deservedly so. Adapts itself to varying conditions and is grown with more sufficiently firm to carry well to distant markets; or less profit in every grape-growing state in the Union. Bunch large, shouldered, compact; berries large, covered with a rich bloom; skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender. Vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety.

Price: Strong roots, each, 50c; per doz., \$5.00.

Catawba. Dark red when fully ripe. Bunch large, moderately compact, shouldered; berries medium to large; skin thick, tough; flesh somewhat pulpy, with rich vinous flavor; of best quality for both table and wine. Vine a good grower, hardy with healthy foliage; very productive and profitable where it succeeds and matures well.

Price: Strong roots, each, 60c; per doz., \$6.00.

Campbell's Early. Black. Bunch large, berry large, nearly round, slightly elongated, covered with profuse light blue bloom; skin thick, tough and does not crack; flesh somewhat pulpy, sweet, with slight aroma, not foxy; quality about same as Concord.

Price: Strong roots, each, 60c; per doz., \$6.00.

SELECTED Currants—For Home Gardens

Perfection, New. The best of all. (See illustration below.) (Red.) A very productive variety, with berries about as large as grapes. Price: Strong roots, each, 50c; per doz., \$5.00.

SELECTED GOOSEBERRIES—For Home Gardens

Downing. Pale green; very sweet.

Red Jacket. It is the best red Gooseberry in existence. Price: Strong roots, each, 40c; doz., \$4.50.

SELECTED RASPBERRIES

Raspberries succeed well on any good land but amply repay high cultivation. "Deodorized" Sheep Manure and bone are the best fertilizers.

Cut out all old wood as soon as the canes have done bearing—to give more vigor to the young canes. Blackcap varieties should be planted only in the spring.

Red.

Cuthbert. Deep, rich crimson, large to very large, very firm. One of the very best market varieties. Season medium to late. A remarkably strong, hardy and productive variety St. Regis. New Raspberry, said to fruit the same year planted. Everbearing, large size, firm, productive, fine quality.

Gregg's Black. Has been for many years the leading market berry. Large, firm, of good quality, ripening late. Exceedingly productive.

Price: Strong roots, each, 15c; per doz., \$1.50.

Clients contemplating purchasing Grape Vines, Currants, Raspberries, etc., in quantity, will do well to ask us for prices. We can furnish high-grade stock at inside prices.

**"WORTH-
WHILE"
QUALITY.**

Our stock of fruit bushes has been supplied by a specialist who has grown none but the best for fifty years, and are not to be compared with the "ordinary run" of nursery stock, a great deal of which contains little fibrous root growth owing to poor cultivation. The above are specially selected for home gardens.

Fresh Fruit from Your Own Garden

CITY AND SUBURBAN HOME GROUNDS

may be greatly improved at small expense by planting a few Grape-vines around the house and yard. The foliage adds beauty and grace to the surroundings, while fresh Grapes will supply the table. Prune thoroughly each year, so as to preserve an equilibrium between root and top, or the vines will overbear. In other words, no more bearing canes should be left than the roots can sustain in a vigorous growth of new shoots. Fertilize with "Deodorized" sheep manure and "pure ground bone meal."

Grapevines can be grown in a small yard, or garden—you don't need a big place. Train them on the fence, over the porch, or on a trellis beside the walk. Ten plants will give plenty of fruit—and some grape juice besides. We list below only the best home garden varieties.

Green's Early. A new white Grape of great merit. A chance seedling of Concord type. Bunch and berry medium to large; sweet; ripens very early. Best white grape for home gardens.

Price: Strong roots, each, 60c; doz., \$6.00

SELECTED BLACKBERRIES

For Home Gardens

In the garden, plant in rows about five feet apart, and four feet apart in the rows. Treat the same as Raspberries. They may be planted in the fall or spring.

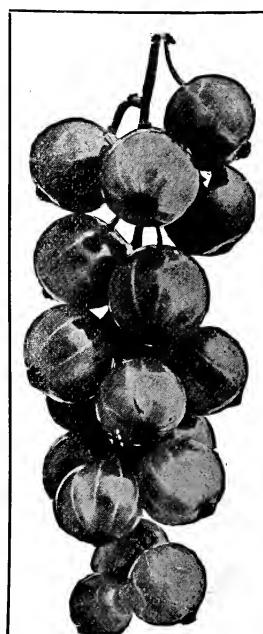

Eldorado. Large, coal-black, sweet, melting, without hard core. Vigorous, hardy and very productive.

Price: Strong roots, each 15c; doz., \$1.50.

To destroy the currant worm, spray the plants with "Pyrox". Use this as a preventive as well, as soon as leaf growth starts. Don't give the bugs a chance to get started. Follow the principle of "an ounce of prevention."

Hardy Garden Roses

HARDY CLIMBING AND RAMBLER ROSES

Suitable for training over arbors, porches, fences or other objects. They all bloom profusely and are hardy under most conditions.

Climbing American Beauty. A fine, new, free-blooming climber of excellent habit. Strong and vigorous in growth, making heavy canes from 10 to 15 feet in a single season. Rosy crimson flowers, produced freely in June and occasionally throughout the season. Very fragrant; a fine Rose. Price, each, 75c; specimen bushes, each, \$1.00.

Crimson Rambler. Well known and very popular. A strong, rank grower that produces heavy trusses of brilliant, double, crimson flowers in great profusion. Price each, 75c; specimen bushes each, \$1.00.

Dorothy Perkins. A splendid variety with bright, glossy foliage that always looks healthy, and beautiful clusters of pink flowers. It is to be highly recommended for general planting, owing to its hardiness under all conditions. It is used extensively for arches and pergolas, as it is a very strong-growing variety. Price, each, 75c; specimen bushes each, \$1.00.

"Thousand Beauties" (Tausendschön) An entirely distinct Rose. The individual flowers are large and of a most elegant and graceful form. In color, a most delightful shade of soft pink. Produced in trusses. It is to many the most attractive and charming of the Climbing Roses. Price, each, 75c; specimen bushes each, \$1.00.

TRUE ENGLISH SWEET BRIER ROSE

The wild Sweetbrier fragrance is undoubtedly one of the sweetest perfumes found in nature. The single pink flowers are quite artistic but it is valued most because of the refreshing fragrance of its foliage. Each 75c; specimen bushes each \$1.00.

AUSTRIAN, OR YELLOW BRIER ROSES

"The Rose of Our Grandmother's Garden"

A very hardy type, producing medium-sized flowers of the most pleasing shade of yellow. This class requires little or no pruning, simply cut out superfluous and dead wood.

Persian Yellow. Large, deep golden-yellow; extra fine. Price each 75c; specimen bushes each \$1.00.

HARDY MOSS ROSES

Roses that are very attractive in the border or shrubbery planting. The buds are surrounded by a mossy covering that makes the flower attractive and unique.

These old-fashioned favorites require close pruning and a liberal supply of "Deodorized" sheep manure and bone meal. They are all delightfully scented. All are of the easiest culture.

Double Pink, Double Red, Double White. 2-year dormant stock. Price each, 75c; specimen bushes each \$1.00.

"BUSH ROSES" "HYBRID PERPETUALS"

While the Hybrid Perpetuals do not bloom as freely as the Hybrid Teas listed above, they are, however, of a distinct type and worthy of a place in any rose collection.

AMERICAN BEAUTY

The queen of all roses, producing extremely fragrant and extra large flowers. Color fine deep pink, shaded toward the center a carmine crimson.

White American Beauty (Frau Karl Druschki). This Hybrid Perpetual Rose is worthy of the name White American Beauty.

Magna Charta. Deep pink, large sweet scented and of fine form, one of the hardest roses in cultivation and most commonly planted.

Paul Neyron. Dark rose of enormous size; perhaps the largest of all.

Price of above, each 75c; doz., \$9.00. Specimens, each \$1.00; doz., \$10.00.

HARDY ROSES (Hybrid Teas)

The Hybrid Tea class is, without question, the most desirable from which to select garden Roses, their free and continuous-blooming

tendencies making it easily possible, with a careful selection of varieties, to cut flowers from early June until frost.

Everblooming Hardy Varieties. Ten Especially Good Sorts

Gruss an Teplitz. Bright scarlet-crimson with vivid, fiery red center; quite hardy and extremely free flowering. This variety is essentially a garden Rose and we recommend it with the utmost confidence.

Killarney. Color bright, sparkling pink, shading to white; long, pointed bud, opening into a large, well-formed flower; very fragrant, hardy and extremely free flowering. Most desirable.

Los Angeles. By all odds, one of the finest Roses ever introduced. In color a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals. In fragrance it is equal in its intensity to the finest Maréchal Niel. The buds are long and pointed and expand into a flower of mammoth proportions. The growth is vigorous to a degree. The beauty of form and ever-increasing wealth of color are maintained from the incipient bud until the last petals drop. \$2.00 each.

Mrs. Charles Russell. By far the most popular Rose that has ever been offered, from the cut-flower standpoint. It is a wonderful keeper when cut, and this fact alone would make it deservedly popular. It is a strong-growing variety, making heavy wood and strong stems.

Ophelia. Salmon-pink, shaded with rose; large, well-formed flowers carried on long, rigid stems and produced continually.

Richmond. Scarlet-crimson in color; an excellent forcing and garden variety; very fragrant and free flowering. It is particularly good in early summer.

Sunburst. Superb cadmium-yellow, suffused with orange-copper and deeper yellow. Large, full flowers of elongated cup-form; vigorous; a fine exhibition Rose.

Price of above except otherwise noted, each 50c; doz., \$5.00.

"Crimson Rambler"
HARDY CLIMBING ROSE.

AMPELOPSIS VEITCHII (BOSTON IVY).
The Most Beautiful of Clinging Vines.

CELASTRUS

Bittersweet

Twining, shrubby vines of extreme hardness and with remarkably showy fruit. They are very effective for covering rocks, walls, or trelliswork, and for climbing trees or lattice. They thrive in sun or partial shade in almost any kind of soil.

Scandens. American Bittersweet. A native climbing vine, distributed from Canada and Dakota southward to Georgia and New Mexico. Capsules orange-yellow with crimson arils, persisting throughout the winter. The unopened, mature capsules will quickly open when cut and partially dried. 75 cts. each, \$8.00 per doz.

Climbing Honeysuckle

Hardy vines with showy and usually sweet-scented flowers. They thrive in almost any kind of soil and are very valuable for covering walls and trellises and as a ground-cover, where they should be allowed to ramble without support of any kind.

Halliana. Hall's Honeysuckle. A rambling, nearly evergreen climber with stems 12 to 15 feet long. Leaves ovate, dark green, and densely covering the branches. Flowers white, changing to yellow, deliciously fragrant, borne in great profusion in summer and occasionally in the autumn. One of the best for trellises and ground-cover. 50 cts. each, \$5.00 per doz.

Sempervirens. Trumpet or Coral Honeysuckle. A high-climbing variety with stems 10 to 15 feet long. Occurs naturally from Connecticut and Nebraska to Florida and Texas. Leaves oblong, bluish green above. Each, 50c; doz., \$5.00.

Just as we were about to go to press with our catalog we were fortunate in securing a moderate number of the:

Beautiful New Hardy Shrub.

CRATAEGUS PYRACANTHA

LALANDI

(Fiery Thorn)

The low, dense, neat habit of this New Thorn is well adapted for planting in small yards and for grouping anywhere. They are very hardy and grow well in all dry soils. The foliage is attractive, handsome and almost evergreen. The white flowers are showy, abundant, and quite fragrant; the bright red fruits produced in autumn are retained long and so thick as to burden the branches. Their foliage colors brilliantly in fall.

This wonderful new Thorn deserves a place in every garden.

Price each, \$1.00; per doz., \$10.00. A few specimens at \$2.00 each. Order early.

Hardy Vines, Climbing Plants, Etc.

AMPELOPSIS

Deciduous Creeper

Hardy, ornamental vines, climbing by tendrils, well adapted for arbors, trellises, and for covering stone and brick structures, etc. They thrive in almost any moist, fertile soil.

Quinquefolia Engelmannii. Engelmann's Virginia Creeper. An improved form of the old Virginia Creeper but stronger and more robust, having larger foliage. Very desirable. 50 cts. each, \$5.00 per doz.

Veitchii. Japanese or Boston Ivy. A graceful vine, closely clinging to walls by means of disk-bearing tendrils. Native of China and Japan. Leaves three-lobed or often with three distinct leaflets, glossy green, coloring brilliantly in autumn. Berries blue, borne in profuse compound clusters. This is undoubtedly the best vine for covering walls, stonework, wood structures, trees, etc. Prune close to the ground when planting. 60 cts. each, \$6.00 per doz. Mammoth size, each 75c; per doz., \$8.00.

BIGNONIA

Tecoma, or Trumpet Vine

Handsome, hardy vines often climbing 50 feet high. Green leaves and large, showy flowers. They thrive best in moist, rich soil and are well adapted for climbing on walls or trunks of trees or for training on arbors or trellises.

Radicans. Scarlet Trumpet Vine. This is our native species, bearing vivid scarlet flower-clusters from July to September. It is a well-known, old-fashioned vine that clings tenaciously and grows very high and rapidly. 50 cts. each, \$5.00 per doz.

CLEMATIS

The Clematis Vines

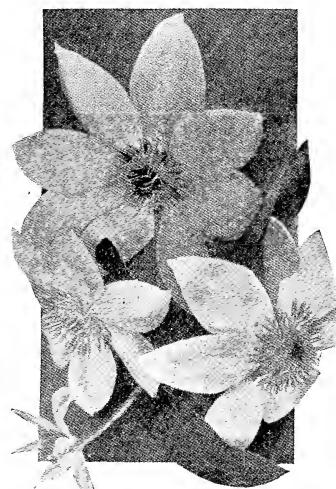

Graceful, free-flowering vines with showy flowers.

Paniculata. Japanese Clematis, or Virgin's Bower. A vigorous climber from Japan with long stems; well adapted for covering purposes. Leaves compound, consisting of several bright green leaflets which persist until winter. Flowers white, fragrant, profusely borne in axillary and terminal panicles practically covering the upper portions of the vines in late summer and early fall. Should be used wherever vines are desired. 50 cts. each, \$5.00 per doz. Mammoth Roots, each 75c; per doz., \$8.00.

The Large-flowering Clematis

The magnificent large flowers are freely produced in summer and are justly prized on account of their beauty and splendor. A good depth of rich, loamy soil should be provided into which a moderate amount of well-rotted manure has been mixed.

Jackmani. Purple. Mme. Edouard Andre, intensely vivid crimson. Each, \$1.00.

CLEMATIS JACKMANI.

New Giant-flowered Althea

WILLIAM R. SMITH

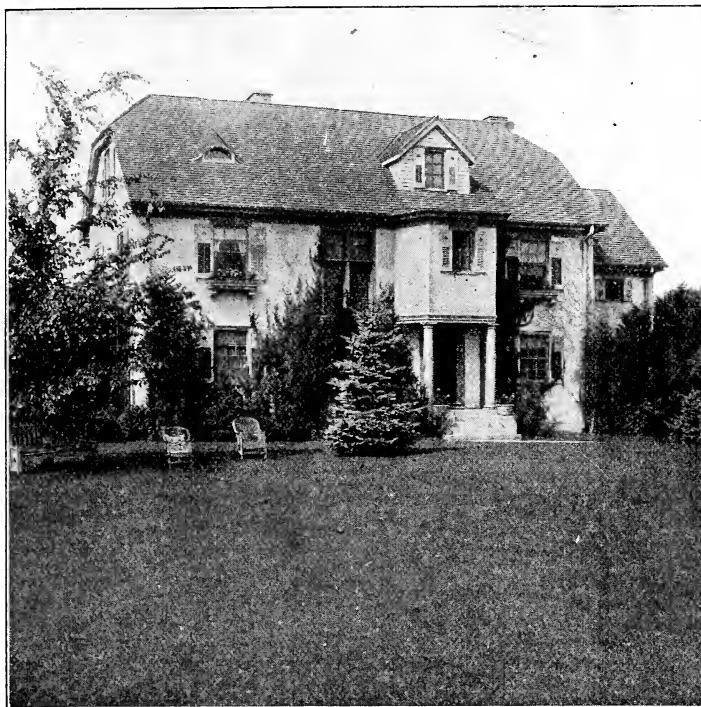

(See Illustration Opposite).

Everyone will be pleased with this splendid new variety.

The habit of the plant is ideal, naturally forming attractive, symmetrical, bushy specimens, while the glistening pure white flowers are of giant size compared to all other sorts, being fully 4 inches in diameter under ordinary cultivation, and open out flat or salver-shaped quite different from the older types which only partially expand; these large, showy flowers are produced in great profusion from early in July until late in September, and are very conspicuous at a period when comparatively few Shrubs are in bloom. Strong two-year-old plants, \$1.00 each; \$10.00 per doz.

FOR SHADED POSITIONS AND SANDY SOILS SOW

HENDERSON'S "SHADY PLACE" LAWN SEED

On almost every lawn there are shaded places where difficulty is experienced in getting the grass to grow. By the use of our "Shady Place" Mixture these unsightly spots can usually be made as green and beautiful as the rest of the lawn. There are certain grasses which thrive naturally in such situations, and these we have combined after much experiment, into the above named mixture. Our "Shady Place" Mixture has brought relief and satisfaction to many who have for years been annoyed by these disfiguring spots on otherwise beautiful lawns. Likewise this mixture produces a quick and reasonably permanent lawn on sandy soils. To secure best results, it is well to sow "Shady Place" Mixture at the rate of one pound for two hundred square feet. Six to eight bushels for an acre.

Largely used for covering bare spots in lawns as well as for sowing with grass seed. (Our mixtures contain a liberal quantity of this.) Also used for sowing in damp situations.

Extra fancy quality, per lb., 90c.

Henderson's "Hardy Evergreen" Lawn Grass Seed for Sunny Positions. (See Page 27)

The Most Beautiful Lawn in Your Neighborhood

Can Be Obtained by the Application of

HENDERSON'S "HIGH GRADE" DEODORIZED

SHEEP MANURE (WITH TANKAGE)

IN CONJUNCTION WITH OUR LAWN GRASS MIXTURES

Used on new or old lawns it not only has a stimulating effect but furnishes a plentiful supply of nutriment to the grass roots and produces that bright dark velvety sheen so much desired, and on lawns where it is used the brilliant effect will stand out over other lawns in the neighborhood that have not been favored with a like application.

It is much superior to straight sheep manure in that it contains a larger percentage of quick acting fertilizing elements besides being practically odorless. It is as easy and clean to handle as grain, being perfectly dry, and can be stored anywhere until wanted for use. We highly recommend this fertilizer for all garden work, lawns, pot plants, etc. Can be used either in dry or in liquid form.

Prices: 5 lbs., 35c; 10 lbs., 60c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50; 500 lbs., \$15.50; 1,000 lbs., \$30.00.

Larger quantities quoted upon application.

DRIED BLOOD. For top-dressing, for mixing with the soil, and for applying in liquid form, it is one of the best and safest nitrogenous fertilizers. It is splendid for roses, carnations, mums, all kinds of pot plants. Price, 5 lbs., 80c; 10 lbs., \$1.50; 25 lbs., \$3.50; 50 lbs., \$6.50; 100 lbs., \$11.25; 250 lbs., \$26.00; 500 lbs., \$50.00.

NITRATE OF SODA or Chili Salt peter. Nitrate of Soda is not a substitute for other Manures, but we recommend it as the cheapest and best form in which to apply Nitrogen to plants. Gardeners who are using farm manure should continue to use it, but use Nitrate of Soda in addition to other fertilizers. If your object is to grow maximum crops you must furnish the plant with Nitrogen.

HOW TO USE NITRATE OF SODA

Remove the lumps before using and break them up, which can be done by pounding. Use as a top-dressing at the rate of 100 lbs., per acre on the following vegetables, when plants are well established: Beets, Cabbage, Cauliflower, Cucumber, Celery, Egg Plant, Lettuce, Spinach, Onions.

For Asparagus, a top-dressing of 250 lbs. per acre just as soon as the first shoots make their appearance. For Strawberries, a top-dressing of about 100 lbs. per acre after the plants have blossomed.

For the Home Garden apply as a solution one ounce to two gallons of water. Price (subject to market changes), 5 lbs., 60c; 10 lbs., \$1.00; 25 lbs., \$2.25.

PURE SHREDDED CATTLE MANURE. Price, 25 lbs., \$1.25; 50 lbs., \$1.80; 100 lbs., \$2.35; 500 lbs., \$9.50; 1000 lbs., \$15.00; 2000 lbs., \$29.50.

ACID PHOSPHATE. Fourteen per cent available. Animal or bone phosphate the most available form. Used on grain crops and others requiring an excessive amount of phosphoric acid. Price, 25 lbs., \$1.05; 50 lbs., \$1.65; 100 lbs., \$2.45; 250 lbs., \$5.65; 500 lbs., \$10.00; 1000 lbs., \$16.25; 2,000 lbs., \$32.00.

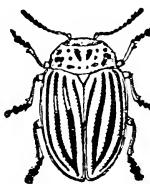

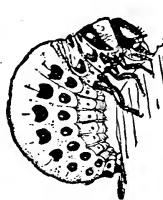

HARD WOOD ASHES. This is also a splendid fertilizer for the lawn and garden, containing all of the fertilizing elements except nitrogen. If used on the lawn at the rate of a ton or more per acre as a first application, and annual dressing of three hundred pounds afterwards, will insure a thrifty growth of dark color, exemption from ill effects of dry weather and freedom from weeds. Price, 25 lbs., 90c; 50 lbs., \$1.65; 100 lbs., \$2.75; 500 lbs., \$9.00; 1000 lbs., \$15.00; 2000 lbs., \$30.00.

BELOW

Selected Trees of any of the following, \$2.50
Specimen Trees, Each..... 3.50

APPLES

Delicious. A remarkable variety introduced in the West several years ago where it is being largely planted and rapidly taking first rank. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp, melting; very highest quality.

Wealthy. Healthy, hardy and very productive. Medium, yellow, shaded with deep red in the sun, splashed and spotted in the shade. Flesh white, fine, tender, juicy, lively sub-acid; very good. One of the most desirable winter varieties.

CRAB APPLES

The Crab Apple has many points of excellence. It makes a fine ornamental tree, perfectly hardy, and will grow in any kind of soil. It bears very early and every year. Unequalled for jelly and vinegar, dried or preserved.

Hyslop. The fruit is covered with brilliant carmine to dark purplish red, overspread with a thick blue bloom. It is roundish, uniform shape; large size for a crab. Good for jellies and cooking purposes.

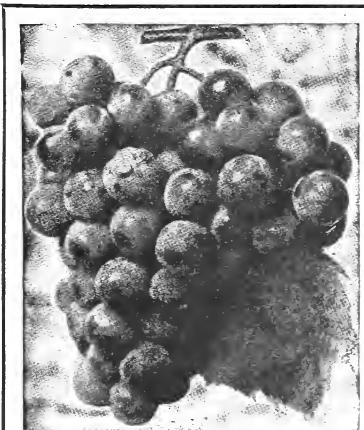

PEARS

Bartlett. The most popular summer pear; large fruit of musky melting flavor. The tree is a vigorous grower, an early and abundant bearer.

PLUMS

Lombard. Last of August. Violet red; yellow flesh, agreeable flavor. One of the best both for eating and preserving.
